WHAT WILL THE FUTURE LOOK LIKE

Dannon Brinkley, Laura Eisenhower, Sacha Stone, Dr. Sandra Rose Michael, Jill Dahne

From where we sit right now with the triple whammy of war in Ukraine, an ongoing global pandemic and very obvious climate change, it might seem that humanity is staring down the barrel of a smoking gun! What is happening to us and why? Are the forces of domination, greed and control on this planet getting stronger, or is God/Spirit with us? Are we alone fighting it out together, or are we being supported through a divinely designed process of inner and outer transformation? What can we do to help ourselves and our global human family? Will humanity create a world of peace, long life, harmony, beneficial science and spiritual growth or will we wreck the planet and doom ourselves

Panel Sunday 11:30am 1E

DR. SANDRA ROSE MICHAEL

Awakening the Body's Inner Intelligence: The EESystem and the Return to Wholeness

Dr. Michael invites attendees into a powerful exploration of the body's innate wisdom and its capacity to return to balance. Drawing from more than 4 decades of teaching Holistic Health, this presentation shares the EESystem where energy and consciousness intersect—supporting optimal health. Rather than fixing or forcing change, Dr. Michael explores remembering and ReGENeration: how the body, when relieved of interference and immersed in a coherent energetic field, may reconnect with its original divine design and innate infinite intelligence. Hear how the EESystem is experienced, why so many people report such profound shifts and how this technology is creating Miracles 24/7 in more than 500 centers in 60+ countries Globally. This talk is designed for seekers, healers, and consciousness explorers who feel that true wellness extends beyond the physical and into the energetic and spiritual realms. With a grounded yet expansive approach, Dr. Michael offers an invitation not a promise to experience Alignment, and the deeper intelligence that already exists within us all. Dr. Sandra Rose Michael is Senior Director of Energy Medicine for the Global Foundation for Integrative Medicines; Faculty, Institute of Energy Wellness Studies; Guest Lecturer for Mount Sinai and other medical schools; and has presented to Parliament, Social Security and Ministries of Health in other nations. SACHA STONE

COSMOGENESIS & THE CRYPTO-CIVILIZATION: From Boneshakers to Biological Ascension

This presentation traces humanity's long arc from cosmogenesis and archeocosmology through the Atlantean descent and into the mechanistic worldview that defined the modern age. Sacha Stone unpacks how clockwork physics, Cartesian severance, accidental biology and managerial technocracy reduced a living cosmos to a dead simulation—taking us from star-maps and sacred science to the industrial “boneshaker” paradigm of the last 150 years. He shows how this worldview reached a breaking-point during recent global upheavals, exposing the exhaustion of the old operating system and revealing a shift-point toward sovereignty, consciousness and biological intelligence. Sacha then introduces the emerging Crypto-Civilization a sovereignty-aligned, blockchain-enabled, post-extractive architecture that restores value to human life, ecology and innovation. The talk culminates in the principle of Biological Ascension: a civilizational reorientation in which consciousness, biology, technology and economics braid into a living planetary template already coming online. Sacha Stone is a visionary activist, filmmaker, and founder of the multi-jurisdictional NewEarth ecosystem, dedicated to pioneering sovereign models of culture, economics, and advanced technologies. A veteran of frontline diplomacy and consciousness work, he bridges geopolitics, sacred history, and future-civilizational strategy to architect post-imperial pathways for humanity. His mission centers on zero-point economics, and the awakening of a planetary culture grounded in sovereignty, beauty, and biological ascension.

**SACHA STONE****COSMOGENESIS & THE CRYPTO-CIVILIZATION: From Boneshakers to Biological Ascension**

This presentation traces humanity's long arc from cosmogenesis and archeocosmology through the Atlantean descent and into the mechanistic worldview that defined the modern age. Sacha Stone unpacks how clockwork physics, Cartesian severance, accidental biology and managerial technocracy reduced a living cosmos to a dead simulation—taking us from star-maps and sacred science to the industrial “boneshaker” paradigm of the last 150 years. He shows how this worldview reached a breaking-point during recent global upheavals, exposing the exhaustion of the old operating system and revealing a shift-point toward sovereignty, consciousness and biological intelligence. Sacha then introduces the emerging Crypto-Civilization a sovereignty-aligned, blockchain-enabled, post-extractive architecture that restores value to human life, ecology and innovation. The talk culminates in the principle of Biological Ascension: a civilisational reorientation in which consciousness, biology, technology and economics braid into a living planetary template already coming online. Sacha Stone is a visionary activist, filmmaker, and founder of the multi-jurisdictional NewEarth ecosystem, dedicated to pioneering sovereign models of culture, economics, and advanced technologies. A veteran of frontline diplomacy and consciousness work, he bridges geopolitics, sacred history, and future-civilizational strategy to architect post-imperial pathways for humanity. His mission centers on zero-point economics, and the awakening of a planetary culture grounded in sovereignty, beauty, and biological ascension.
