Problem Solving In Our Dreams with LAYNE DALFEN
SATURDAY, OCTOBER 19, 2019

With 45 years of experience in dream study based on the works of Freud, Jung, Adler and Perls, Layne Dalfen teaches an easy-to-grasp method to uncover the solutions to our current issues that appear in our dreams every night. Layne founded The Dream Interpretation Center in Montreal in 1997, and serves as a lecturer to that city’s counseling students at Concordia University. She is a member of The International Association for the Study of Dreams (IASD) and sat on The Board of Directors.

THE LECTURE | Saturday 3:30pm Brooklyn Room (Basement)

Learn dream analysis with a view towards problem solving. A dream is the conversation you are having with yourself concerning a very specific issue in your life this week you are attempting to problem solve. Our dreams help us resolve issues regarding relationships, work, and daily life. Come and learn how dreams can show us our hidden blocks to progress, recognizing how patterns in dreams reflect the pattern’s in one’s waking life, and how to work with them to achieve your goals.

THE WORKSHOP | Saturday 4:30pm Brooklyn Room (Basement)

Join us for the workshop where you will have the opportunity to do some dream work with Layne in a group setting. You’ll learn Layne’s step-by-step “how-to” method and away we’ll go learning and watching the incredible process of dream analysis. You will be astounded by how our sophisticated unconscious mind provides a safe place for us to problem solve today’s current issue. Find out what a solution looks like when it comes in the form of a metaphor. Will we discuss nightmares and recurring dreams? Of course! Come and participate with or without a dream!

Mediumship Healer Kimberly Meredith Offers Healing, Hope

"I believe in supporting the fighters, admiring the survivors, honoring the taken, and never, ever giving up hope." -- Kimberly Meredith, Medical Medium and Healer

Meredith also typically invites several volunteers to assist her in the healing. "By helping others to heal," Meredith said, "you yourself can be healed."

Attendees of her DNA Activation event will also receive special blessings and anointings, as well as instruction for elevating one's consciousness in order to achieve one's full potential.

Testing showed Meredith’s abilities could penetrate even solid walls to affect healing.

"Kimberly is, among other things, almost certainly focusing scalar energy," Dr. Shealy said, referring to a longitudinal form of energy first theorized by the famous inventor Nikola Tesla.

Renowned medical medium and healer Kimberly Meredith returns to New York City this fall to headline three NEWLIFE EXPO healing events focusing on Breast Cancer Awareness Month.

Events include:
- Receiving the Healing Miracles DNA Activations on Sat., Oct. 19
- Healing in the God Dimension on Mon., Oct. 21
- and “All You Need Is Love,” celebrating the music of The Beatles, on Sat., Oct. 26 at the New York Open Center

“Ninety percent of my clients have cancer,” Meredith said. “This is why the focus of the event is cancer resistance and recovery.”

Specializing in the diagnosis and healing of all kinds of extreme physical and emotional conditions through mediumship, Meredith estimates thousands of people and animals have experienced healing or improvement with her help through the power of God. Her clients include adults of all ages, children and even animals, whom she sees in person or over Skype.

During her non-denominational healing events, Meredith selects multiple audience members to be diagnosed and healed.

While Meredith’s events are non-denominational, she says she draws strength and guidance from God, Jesus, Mother Mary, the Indian sage Paramahansa Yogananda, and an assortment of angels. She is further assisted by a number of higher-dimensional beings she calls “Guides,” whose collective interest is the elevation of consciousness of all beings.

Meredith received her gifts of healing and mediumship following two accidents and two separate Near Death Experiences. “I saw a beautiful light,” Meredith says. “I saw angels. I heard the voice of God. I saw Jesus.”

Meredith has been invited by multiple scientific laboratories to undergo scientific testing to study her abilities. Most recently, she was tested at the IONS Institute of Noetic Sciences, founded by Apollo program astronaut Edgar Mitchell.

She was also tested at PsyTek Subtle Energy Laboratory in California, and again by neurosurgeon Dr. C Norm Shealy, founder of the American Holistic Medical Association.

MY 12th AND LAST CANCER

Part One:
“Wild Bill” Ellis’ Incredible Story

This is Part 1 of an abbreviated account of Bill Ellis’ astounding journey out of 12 cancers, and his transformation from a tumor-prone, ravaged body, to his new life. Edited, appropriately, by NewLife. Learn the implications of Bill’s head-to-toe metamorphosis for all people with award-winning author, Kat James’ at NewLife Expo.

“You’ll be dead in two years” are words Bill Ellis, 71, of Pikeville, TN, had heard at least a dozen times since his first cancer diagnoses in 2007. “Wild Country Bill,” as Kat James respectfully calls him, is no regular guy. He dabbles in real estate...delivers a calf here and there... delivers the mail “just to connect with people”—especially the doctors on his route—with whom he shares formidable health research. It’s a passion of Bill’s, born out of necessity and sheer will to survive the 2 broken necks, 1 bladder cancer, 2 prostate tumors, 4 melanomas, 3 carcinomas, and countless other serious health challenges he’s faced. As a farmer, Bill his other family members who got cancer, were unfortunately exposed to toxic pesticides. But Bill took an alternative treatment route and after shrinking his 5th tumor his family no longer questioned his “reckless” decisions.

Last August, a new facial tumor had him more concerned than usual because it was near a nerve, meaning if it was missed by the biopsy, they’d have to do radiation and the prognosis would be about six months survival. Luckily, they got all of it, leaving Bill with “only” one active tumor, which had spread from one area of his prostate to a new area. “I’ve got this,” he thought. But this one proved a stubborn one. And the frequency of these cancers popping up was increasing, especially on his face, in spite of Bill’s advanced supplement regimen, which included hyssop, Carnivora, Haelan 951, nattokinase and vitamin D, among others. He was deeply motivated to escape the fate of his family members who “wound up in diapers” after their conventional treatments. Bill wasn’t having it. It was fun to see shaking heads of doctors who’d warned Bill he’d soon be dead, or the one who was clearly disappointed when he could find nothing but where the ureter-blocking tumor had once been (he actually passed it; disgusting but fascinating story) and had to cancel Bill’s kidney surgery. But Bill was also getting tired of getting new cancers in new places at the rate of about one per year.

Now again, to be clear, it’s not suggested that you make the decisions Bill has made. Cancer is a serious issue and you should seek qualified medical supervision. In fact, Bill did do that. He just ultimately made his decisions based on the vast amount of information he amassed. But even after beating the first ten cancers Bill realized his health was still falling apart, even long after cutting out sugar and processed foods. The herbs had saved him many times over, but he lived in severe pain, day and night, inability to sleep, difficulty breathing at night, poor energy, a “basketball belly,” and too many trips to all kinds of doctors—not just for cancer checks but for odd things like having his sinuses and salivary glands drained, or his prostate manipulated to allow him to urinate more easily. Oh, and his kidney stones checked.

Synchronicity and a Look at Leptin

In August, 2018, just after the facial tumor scare amidst battling his latest prostate tumor, Bill was listening to the radio while delivering the mail and heard Kat James talking about the “master hormone,” leptin’s, relationship with certain cancers. Although Leptin (already in our bodies) has profound effects on all systems, Bill’s interest piqued when James mentioned how keeping the hormone low (something only attainable through individualized dietary strategy)—while optimizing its functioning in the brain—had reduced proliferative cancers in some research. By quite a coincidence, James’ leptin-focused educational seminar was coming to Chattanooga, TN that fall, half an hour from Bill. He signed up right away and started—with his docs’ supervision and James’ coaching, and... with full understanding that she made no medical claims or promises—regarding the unique, high fat, very low carb, moderate protein regimen she’d pieced together back in 1990, well before leptin’s discovery, to save her own life.

After 8 days on her regimen, Bill had lost 17 lbs. (from 239 to 222) without hunger. His blood sugars and pressure normalized. By the time of the retreat, his PSA numbers had dropped from 36 to 19 and his tumor had reduced by about 40%. Docs heads were shaking (yet again) and a nurse commented that it “defied reason.” During the Chattanooga event, Bill was amazed to effortlessly hit his high school weight of 198. 200 had been his “bucket list” goal. His weight loss had slowed before the retreat, but then accelerated during it, as his unwitting mistakes were being corrected left and right by James. He had a major improvement in urine flow and his energy “went through the roof.” But this was just the beginning...

PART TWO OF THIS STORY IS CONTINUED ON PAGE 5 OF NEWLIFE MAGAZINE.

*Where It All Began: Words Of Light*

Our soul spark comes from an endless, boundless and distance place. When we incarnate, our soul does not entirely descend, and part of it remains in the spiritual planes. There are also other parts of the soul, which become split through Significant Emotional Experiences (SEE), which we face in our human existence. This causing us to feel disconnected, lost and unsettled in our mind and body at times. Join us for special 3-hour Workshop designed especially for the NewLife Expo, where Envita Rose will share a Sacred Message taking you back to where it all begins, to unify and harmonize all the aspects of your soul. She will show you how you are able to collect all of the split entities of your soul from the SEE, allowing them to integrate within your mental body - where your free will is; within your emotional body - where your feelings are; within your physical body - where your true qualities are and within your spiritual body - where the true connection to the Spirit/Cosmos/Source is. Also releasing all of the aspects that no longer serve you or your greater good. As a result of this, your soul will be in perfect union with your mind, body and spirit. Connecting to the channel of light and thus opening a passage to the source energy allowing the various aspects to flow into your world.

**A Year That Resets And Reboots! What 2020 Brings You - The Rare Grand Conjunction Of Jupiter, Pluto And Saturn And How Eclipses In Capricorn, Cancer, Gemini, Sagittarius Will Affect You.**

2020 promises to be a big year, unlike any you have experienced in recent memory. A bevy of migrating planets will form a rare crown of stars in Capricorn at the end of December 2019 through early January 2020 and their presence will have far-reaching effects on every sign, and on society, too, now and for years to come. These planets will bring reason for hope and optimism to every sign. Learn about the coming eclipses in Cancer and Capricorn, and new ones due in a new family of signs, Gemini and Sagittarius. Eclipses are the most dramatic tool the universe uses to bring on new conditions, and no matter what your sign happens to be, you will feel their influences in January, June, July, November and December 2020. This is a year you can prosper and enjoy, provided you plan your most important actions to correspond with the year’s best dates and to avoid the coming retrogrades of Mercury, Mars and Venus. At your end, December 2020, both Saturn and Jupiter will sail into Aquarius, putting that sign, and the area of your chart ruled by Aquarius in the spotlight. It is due to be a big year-get ready!

JUDY SATORI

**Be Beautiful… Inside And Out**

You have probably heard the saying, “true beauty is not just skin deep”. But, do you know that your physical body can be remodeled and physically restructured to transmit the authentic essence and light of the Soul through your physical form? Our human body vehicle of soul expression is part physical, flesh and blood organic structure, and part energy. That physical self is made up of DNA “recipe” coding and the chemical composition of atoms and molecules creating an organic, physical form. Every aspect of who we are as a person is the outcome of the physical and energetic manifestation of the DNA blue print of life that makes us unique. It is now becoming possible to imprint energy onto energy...to modulate and change our physical form and everything about how we think, feel and operate in life. ANYA PETROVIC
Discover And Experience Tesla Metamorphosis

Anya Petrovic, is the founder of Tesla Metamorphosis’s internationally recognized teacher, healer and author from Australia. Participants will have an opportunity to experience these amazing frequencies in live demonstration of healing, and to learn how they too, for the purpose of curing, can harness the power Nikola Tesla worked with. According to scientists, Tesla Waves are unique for Tesla Metamorphosis, they are not registered in any other modality. (Tesla called them Non-Hertzian waves.) Clients report healing from maladies that are labeled as incurable, even from physically damaged spine and birth deformities. The effect of Tesla Waves on elevating the human consciousness might be even more important than healing. This enables all students to create communication with clients on the level of the conscious, subconscious and integrative mind, thought they were not aware of such their abilities before. Use the opportunity to master this work at the seminars after the Expo

Ascension could be defined as the divinely orchestrated expansion into more of the true authenticity and light of the soul, while becoming remade anew as a physical being. It is not about going up, or going anywhere. Ascension is the eternal, soul-self energy part of us, merging with our physical human self, so that our authentic soul light can shine forth...through the body...through how we think and act in the world... and in what we can create as human God-Creators. The Ascension process has barely begun. It is expected that Ascension changes will accelerate in the 13 years from 2020 to 2033. During this powerful window of Ascension transformation, you will be triggered to remember more of your expanded soul truth. Your heart energy, the portal to being able to take in and assimilate Ascension frequencies, will open. Potential held within your soul DNA memory will be activated to express. Learn how Ascension will affect You, both now and in the years ahead. You will also benefit from experiential processes at this event.

Reach Your Own Metamorphosis

“If you want to find the secrets of the universe, think in terms of energy, frequency and vibration.” – Nikola Tesla

There are three modes in Tesla Metamorphosis: Tesla Healing Metamorphosis, Tesla Soul Communication and Tesla Light Body Metamorphosis. I was fascinated the most with the process we call Tesla Soul Communication, where practitioners create communication with the client on all levels of consciousness.

The practitioner writes down everything as it comes through, without correcting anything. This process might help clients to understand why they were preventing themselves from healing, or how and why they might be sabotaging themselves or creating a situation or condition which was blocking them from going forward, from making a change. This could also help a client to find out the cause of an illness. When we reach communication on the level of integrative mind, this is the space through which we are all connected, the space of Love, of Truth. This is the level of the soul. That means that clients might achieve karmic healing.

Orbs visible to naked eye

eyes were no longer just eyes but orbs of light floating above them, colors on the wall in halls

They could heal their karmic. Further, the healer can go to the Source and bring a message for the client. These messages are not precious just because they can help the healing; they could be life-changing. They bring the inner being to the state of metamorphosis.

We learned how to perform Tesla Soul Communication at the Tesla Metamorphosis II seminar. The first exercise was to look at photos. Each student brought a photo of somebody who needed healing. The photos were placed on the table face down. Each of us chose a photo to work on, avoiding the photo he brought. After finishing the communication with clients, we were reading what we got, and the person who brought the photo was giving the feedback. There was a great excitement in the class when we discovered that there were no doubts that we were communicating with this particular person! The one who brought the photo was able to recognize the style, by words and attitude of the person in the photo. And everybody in the class was capable of doing it!

We keep in our subconscious mind many memories; thoughts, emotions, images, beliefs. Some of them are not pleasant. The events that were difficult to deal with, experiences that we want to forget, we push them into our subconscious mind. The problem is that they interfere with our life influencing our reactions, creating fears and illnesses. The process of Tesla Soul Communication helps us in bringing those issues from the subconscious to the conscious level, where we are able to deal with them and to transcend the problem. As Jung said: “Until you make the unconscious conscious, it will direct your life and you will call it fate.”

Tesla Soul Communication is equally important for both, clients and practitioners. Most of us believe that we know ourselves well. Actually, nobody can do us as successfully as we ourselves can do it. That is why it is a special challenge to do Tesla Soul Communication on oneself. This can help us on our journey of elevating our personal consciousness. We can get to know ourselves better, we can unveil some truths we might be hiding from ourselves. This might help us understand better our reactions in some situations and clarify our true motives and goals. It could help us find our purpose. Anya highly recommends to practitioners to do it from time to time, citing Jung: “Anybody whose calling is to guide souls, should have his own soul guided first, so that he knows what it means to deal with the human soul.”

Some completely new phenomena are noted during sessions and seminars of Tesla Metamorphosis, like light around around some clients, halls of light floating above orbs, colors on the wall in halls where seminars were being held, all visible to naked eye. This attracts great interest among scientists, which is why Anya presented at the International Tesla Science Conference in Philadelphia, at the International Tesla Congress in Belgrade, and at the British Columbia University in Canada.

The colour of the colours which appeared on the wall at the seminar in Kelowna and some other cities, is unknown

All these phenomena, including healings, people tend to call miracles. Anya’s book TESLA METAMORPHOSIS – Heal and Evolve is on the quest to understand miracles, and it reveals new knowledge. The answers are found in pioneering scientific research, and also in ancient wisdom. The subject of this book is expanded to understanding the healing phenomena in general, merging science and spirituality. Personal experiences are presented with childlike honesty and a genuine sense of humor. The spirit of Nikola Tesla is imbued throughout this book, giving it a new dimension.

But, do you know that your physical body can be remodeled and physically restructured to transmit the authentic essence and light of the Soul through your physical form? Our human body vehicle of soul expression is part physical, flesh and blood organic structure, and part energy. That physical self is made up of DNA “recipe” coding and the chemical composition of atoms and molecules creating organic, physical form. Every aspect of who we are as a person is the outcome of the physical and energetic manifestation of the DNA blue print of life that makes us unique. It is now becoming possible to imprint energy onto energy...to modulate and change our physical form and everything about how we think, feel and operate in life. Introducing the NLS Matrix Decoder, NLS Matrix Decoder Mini and NLS Matrix Decoder Pro
Non-linear analysis systems (NLS) are the most advanced information technologies available in this century and can be considered the most remarkable and advantageous accomplishment of modern natural science. The analysis equipment is based on the spectral analysis of the vortex magnetic field of any biological object. It is quite unique and unparalleled in the world today.

Contactless, non-invasive, quick, safe, highly-informative method of organism examination

Another wonderful opportunity offered by NLS Matrix Decoder analysis testing.

Internal organs Skeleton Muscles Blood circulatory system Lymphatic system Nervous system Heart Cardiac chambers Cardiac vessels Cardiac system Lungs Teeth External ear Chakras and much more

Every pathological process also has its own distinctive graph stored in the computer memory with all the progressive stages shown with age, sex and other variations taken into account. After reading the frequency characteristics of the researched biological object, the system compares the degree of their spectral similarity with healthy, and pathologically affected tissue, or infection agents, to obtain the closest pathological process or tendency.
